Easy Deployment Mobile CCTV Surveillance
System:

- For Construction Sites
- For Traffic Monitoring and Road Conditions
- Black Zone Surveillance

BARRIER MASTER
Gatekeeping Your Premises

4G Fixed Camera (Solar-Powered)

4 X 4G fixed cameras pointing at 4 directions to cover all angle, each with built-in memory for video storage, with customizable pole to any height, solar system for minimum 24 hours power supply.

4G SIM card can be included as an option or by end user. Installation and mounting as an option or by others. Civil works and concrete base by others.

4G Fixed Camera (Basic)

4 X 4G fixed cameras pointing at 4 directions to cover all angle, each with built-in memory for video storage and with customizable pole to any height

4G SIM card can be included as an option or by end user. Installation and mounting as an option or by others. Civil works and concrete base by others.

The 4G All-Weather Outdoor Camera (model and design are subjected to changes without notice)

- 4G LTE with SIM card slot
- 1080P full HD resolution
- Wide angle view
- Day and night vision
- Motion detection
- Tempering alert
- Smartphone APP for view & playback
- Built in 128GB memory for video recording

Solar-Powered Panel Modular System (model and design are subjected to changes without notice)

- Polycrystalline or Monocrystalline silicon solar cells or equivalent
- Minimum 24 hours backup
- Extended 72 hours continuous operation without sunlight
- Backing up power to lithium-ion batteries
- Minimum peak efficiency 15 degree Celsius
- Maximum tolerable temperature 50 degree Celsius
- Penalization and modular system

4G PTZ Camera (Basic)

1 X 4G PTZ camera with built-in memory for video storage and pole only. Optical zoom, pan, tilt control and 360-degree rotation. Customizable pole to any height

4G SIM card can be included as an option or by end user. Installation and mounting as an option or by others. Civil works and concrete base by others.

4G PTZ Camera (Solar-Powered with Optional Base Plate)

1 X 4G PTZ camera with built-in memory for video storage. Optical zoom, pan, tilt control and 360-degree rotation. Customizable pole to any height. solar system for minimum 24 hours power supply.

4G SIM card can be included as an option or by end user. Installation and mounting as an option or by others. Civil works and concrete base by others.

Steel base panel for CCTV pole transfer from site to site.

The 4G All-Weather PTZ Camera (model and design are subjected to changes without notice)

- 4G LTE with SIM card slot
- 1080P full HD resolution
- 20X optical zoom, 200m zoom in view
- Day and night vision
- Motion detection
- Tempering alert
- Smartphone APP for view & playback
- Built in 128GB memory for video recording

Solar-Powered Panel Modular System (model and design are subjected to changes without notice)

- Polycrystalline or Monocrystalline silicon solar cells or equivalent
- Minimum 24 hours backup
- Extended 72 hours continuous operation without sunlight
- Backing up power to lithium-ion batteries
- Minimum peak efficiency 15 degree Celsius
- Maximum tolerable temperature 50 degree Celsius
- Penalization and modular system

Waterproof Mobile Recorder (Optional)

- Add 1TB SSD waterproof Mobile DVR for 1 month recording and simultaneous all cameras streaming and remote view.

Speed Camera (Customizable)

- 4 lanes, different directions, multiple targets vehicle speed capturing with local violation storage and other methods of transmission.
